

ISN'T IT TIME YOU HAD THE POWER TO INVEST IN FORWARD-THINKING COMPANIES THAT TREAT EVERYONE EQUALLY?

THE WORKPLACE EQUALITY PORTFOLIO

Planning for the future. Saving for education. Forecasting retirement needs. Putting kids through college. Getting ahead. Investors have a lot in common, and for many that also includes dedication to equality.

Where we work, what we buy, the brands we prefer and how we save so often reflect our values. That's where the Workplace Equality Portfolio puts the power in your hands.

The Workplace Equality Portfolio is an exchange-traded fund (ETF) that allows investors to reward companies doing business in the U.S. based on their progressive workplace policies, which treat lesbian, gay, bisexual and transgender people equally, fairly and respectfully.

The Portfolio is new with a limited operating history. You cannot invest directly in an index. The Portfolio is subject to additional risks. The Fund invests in stocks of companies which meet the Index's criteria for supporting workplace equality for LGBT employees. The trend of companies supporting workplace equality in this fashion is relatively recent, and there may be a limited number of companies which meet the Index's criteria. Fund concentration generally leads to greater price volatility. Foreign investing involves special risks such as currency fluctuations and political uncertainty.

The assets of the Portfolio are invested in the Workplace Equality Index™ and the investment performance of the Portfolio is directly related to the investment performance of this Index. The Portfolio is not suitable for all investors. An investor considering the Portfolio should be able to tolerate potentially wide price fluctuations. The Workplace Equality Index™ is a stock index that includes publicly-traded companies that support lesbian, gay, bisexual and transgender (LGBT) equality in the workplace. Companies in the Index must score 100% on the Human Rights Campaign Corporate Equality Index or, if not found in the Corporate Equality Index, have the verifiable characteristics that would earn them such a score.

Shares are not individually redeemable. Investors buy and sell shares on a secondary market. Only market makers or "authorized participants" may trade directly with the Portfolio, typically in blocks of 50,000 shares.
