

NYSE ARCA: EQLT

SUPPLEMENT DATED AUGUST 4, 2015
TO THE PROSPECTUS AND STATEMENT OF ADDITIONAL INFORMATION
DATED MARCH 31, 2015

Change of Custodian, Fund Accounting Agent and Transfer Agent

Effective August 3, 2015, the Board of Trustees of the Trust has appointed State Street Bank and Trust Company (“State Street”) as the custodian and transfer agent and ALPS Fund Services, Inc. as the fund accounting agent to the Workplace Equality Portfolio. As a result, all references to The Bank of New York Mellon in the Prospectus and SAI with respect to the above named Fund are hereby deleted and replaced with reference to State Street with respect to custodian and transfer agent services and ALPS Fund Services, Inc. with respect to fund accounting services.

In addition, the section entitled “Custodian and Transfer Agent” on page 64 of the SAI is hereby deleted and replaced in its entirety with the following:

Custodian and Transfer Agent. State Street Bank and Trust Company (“SSB”), also serves as custodian for the Funds pursuant to a Custodian Agreement. As custodian, SSB holds each Fund’s assets, calculates the NAV of Shares and calculates net income and realized capital gains or losses. SSB also serves as transfer agent of the Funds pursuant to a Transfer Agency Agreement. As compensation for the foregoing services, SSB receives certain out-of-pocket costs, transaction fees and asset based fees which are accrued daily and paid monthly by the Adviser from the management fee.

SUMMARY SECTION

Workplace Equality Portfolio (the “Fund”)

Investment Objective

The Fund seeks investment results that correspond (before fees and expenses) generally to the price and yield performance of its underlying index, the Workplace Equality Index™ (ticker symbol LGBTEQLT) (the “Underlying Index”).

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund (“Shares”). Investors purchasing or selling Shares in the secondary market may be subject to costs (including customary brokerage commissions) charged by their broker. These costs are not included in the expense example below.

Annual Fund Operating Expenses *(expenses that you pay each year as a percentage of the value of your investment)*

Management fees	0.75%
Other expenses ⁽¹⁾	0.00%
Total annual Fund operating expenses	0.75%

⁽¹⁾ “Other expenses” are based on estimated amounts for the current fiscal year and are calculated as the Fund’s net assets.

Example

The following example is intended to help you compare the cost of investing in the Fund with the costs of investing in other funds. The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your Shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same each year. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

One Year	Three Years	Five Years	Ten Years
\$77	\$240	\$417	\$930

Portfolio Turnover

The Fund will pay transaction costs, such as commissions, when it purchases and sells securities (or “turns over” its portfolio). A higher portfolio turnover will cause the Fund to incur additional transaction costs and may result in higher taxes when Shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, may affect the Fund’s performance. For the fiscal period February 25, 2014 (commencement) through November 30, 2014, the Fund’s turnover rate was 8% of the average value of the Fund.

Principal Investment Strategies

The Fund employs a “passive management” – or indexing – investment approach designed to track the performance of the Underlying Index. The Underlying Index is designed to

provide a means of tracking the performance of companies which support workplace equality for lesbian, gay, bisexual and transgender (“LGBT”) employees. The Underlying Index consists of approximately 200 publicly traded stocks of U.S. and foreign companies which support equality for LGBT employees through their workplace practices, including non-discrimination policies regarding sexual orientation and gender identity and providing full benefits to for same-sex spouses, domestic partners and transgender individuals. The Underlying Index is compiled by Denver Investment Advisors LLC (“Denver Investments” or the “Index Provider”). The Index Provider uses publicly available lists and screening sources such as the National Gay & Lesbian Chamber of Commerce® Diversity Inc. Top 50®, Stonewall® or other screening sources, to identify companies with workplace policies that meet the Underlying Index’s criteria for equality for LGBT employees as described above (as well as market capitalization and liquidity requirements). The Index Provider also utilizes its own proprietary database for LGBT screening. The criteria are subject to change in response to changes in law.

Stocks must be traded on an exchange and must have a minimum market capitalization of at least \$250 million and a minimum average daily trading volume of \$2 million in the prior three months to be included in the Underlying Index. The stocks in the Underlying Index are weighted equally as of each rebalance date. The Underlying Index is rebalanced quarterly, on the third Friday of March, June, September and December. The Underlying Index is reconstituted annually on the third Friday of each December.

The Fund will normally invest at least 90% of its total assets in securities that comprise the Underlying Index (or depositary receipts based on such securities). Under normal conditions, the Fund generally will invest in all of the securities that comprise the Underlying Index in proportion to their weightings in the Underlying Index; however, under various circumstances, it may not be possible or practicable to purchase all of the securities in the Underlying Index in those weightings. In those circumstances, the Fund may purchase a sample of the securities in the Underlying Index or utilize various combinations of other available investment techniques in seeking performance which corresponds to the performance of the Underlying Index.

As of December 31, 2014, the Underlying Index was substantially comprised of issuers in the consumer discretionary and financial services sectors.

Principal Investment Risks

Investors should consider the following risk factors and special considerations associated with investing in the Fund, which may cause you to lose money.

Investment Risk. An investment in the Fund is subject to investment risk including the possible loss of the entire principal amount that you invest.

Equity Risk. A principal risk of investing in the Fund is equity risk, which is the risk that the value of the securities held by the Fund will fall due to general market and economic conditions, perceptions

regarding the industries in which the issuers of securities held by the Fund participate or factors relating to specific companies in which the Fund invests. For example, an adverse event, such as an unfavorable earnings report, may depress the value of equity securities of an issuer held by the Fund; the price of common stock of an issuer may be particularly sensitive to general movements in the stock market; or a drop in the stock market may depress the price of most or all of the common stocks and other equity securities held by the Fund. In addition, common stock of an issuer in the Fund's portfolio may decline in price if the issuer fails to make anticipated dividend payments because, among other reasons, the issuer of the security experiences a decline in its financial condition. Common stock is subordinated to preferred stocks, bonds and other debt instruments in a company's capital structure, in terms of priority to corporate income, and therefore will be subject to greater dividend risk than preferred stocks or debt instruments of such issuers. In addition, while broad market measures of common stocks have historically generated higher average returns than fixed income securities, common stocks have also experienced significantly more volatility in those returns.

Foreign Investment Risk. The Fund's investments in non-U.S. issuers may involve unique risks compared to investing in securities of U.S. issuers, including, among others, greater market volatility than U.S. securities and less complete financial information than for U.S. issuers. In addition, adverse political, economic or social developments could undermine the value of the Fund's investments or prevent the Fund from realizing the full value of its investments. Financial reporting standards for companies based in foreign markets differ from those in the United States. Finally, the value of the currency of the country in which the Fund has invested could decline relative to the value of the U.S. dollar, which may affect the value of the investment to U.S. investors. The Fund will not enter into transactions to hedge against declines in the value of the Fund's assets that are denominated in a foreign currency.

Strategy Risk. The Fund invests in stocks of companies which meet the Underlying Index's criteria for supporting workplace equality for LGBT employees. The trend of companies supporting workplace equality in this fashion is relatively recent, and there may be a limited number of companies which meet the Underlying Index's criteria. The Fund may thus have limited exposure to various industries, sectors, regions, and countries and there can be no assurance that the stocks of the companies which meet the Underlying Index's criteria will be in favor as compared to the stocks of other companies. In addition, political trends towards increasing legal equality for LGBT persons could stall or reverse: whether as a result or separately, the number of companies supporting workplace equality for LGBT employees could stop increasing or even decrease.

Consumer Discretionary Sector Risk. As of the date of this Prospectus, the Fund invests a significant portion of its assets in securities issued by companies in the consumer discretionary sector in order to track the Underlying Index's allocation to that sector. Companies engaged in the consumer discretionary sector

are subject to fluctuations in supply and demand. These companies may also be adversely affected by changes in consumer spending as a result of world events, political and economic conditions, commodity price volatility, changes in exchange rates, imposition of import controls, increased competition, depletion of resources and labor relations.

Financial Services Sector Risk. As of the date of this Prospectus, the Fund invests a significant portion of its assets in securities of issuers in the financial services sector in order to track the Underlying Index's allocation to that sector. The financial services sector is subject to extensive government regulation, can be subject to relatively rapid change due to increasingly blurred distinctions between service segments, and can be significantly affected by availability and cost of capital funds, changes in interest rates, the rate of corporate and consumer debt defaults, and price competition. In addition, the deterioration of the credit markets since late 2007 generally has caused an adverse impact in a broad range of markets, including U.S. and international credit and interbank money markets generally, thereby affecting a wide range of financial institutions and markets. In particular, events in the financial sector since late 2008 have resulted, and may continue to result, in an unusually high degree of volatility in the financial markets, both domestic and foreign. This situation has created instability in the financial markets and caused certain financial services companies to incur large losses. Numerous financial services companies have experienced substantial declines in the valuations of their assets, taken action to raise capital (such as the issuance of debt or equity securities), or even ceased operations. These actions have caused the securities of many financial services companies to experience a dramatic decline in value.

Small- and Medium-Sized Company Risk. Investing in securities of small and medium-sized companies involves greater risk than is customarily associated with investing in more established companies. These companies' stocks may be more volatile and less liquid than those of more established companies. These stocks may have returns that vary, sometimes significantly, from the overall stock market.

Non-Correlation Risk. The Fund's return may not match the return of the Underlying Index for a number of reasons. For example, the Fund incurs a number of operating expenses not applicable to the Underlying Index, and incurs costs in buying and selling securities, especially when rebalancing the Fund's securities holdings to reflect changes in the composition of the Underlying Index. In addition, the performance of the Fund and the Underlying Index may vary due to asset valuation differences and differences between the Fund's portfolio and the Underlying Index resulting from legal restrictions. Tax withholdings imposed by foreign countries may also contribute to differences between the Fund's return and the return of the Underlying Index.

Due to legal and regulatory rules and limitations imposed domestically or by certain countries in which securities in the Underlying Index trade, the Fund may not be able to invest in all

securities included in the Underlying Index. The Fund may exclude certain securities included in the Underlying Index that are traded in certain countries due to issues such as trading restrictions, cost or liquidity constraints. For tax efficiency purposes, the Fund may sell certain securities to realize losses, causing it to deviate from the Underlying Index.

The Fund may not be fully invested at times, either as a result of cash flows into the Fund or reserves of cash held by the Fund to meet redemptions and expenses. If the Fund utilizes a sampling approach or otherwise does not hold all of the securities in the Underlying Index, its return may not correlate as well with the return on the Underlying Index, as would be the case if it purchased all of the securities in the Underlying Index with the same weightings as the Underlying Index.

To the extent the Fund calculates its net asset value (“NAV”) based on fair value prices and the value of the Underlying Index is based on securities closing prices on local foreign markets, (i.e. the value of the Underlying Index is not based on fair value prices) or the Fund otherwise calculates its NAV based on prices that differ from those used in calculating the Underlying Index, the Fund’s ability to track the Underlying Index may be adversely affected.

Issuer Specific Risk. The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than that of larger issuers.

Concentration Risk. If the Underlying Index concentrates in an industry or group of industries the Fund’s investments will be concentrated accordingly. In such event, the value of the Fund’s Shares may rise and fall more than the value of shares of a fund that invests in securities of companies in a broader range of industries.

Fluctuation of Net Asset Value. The NAV of the Fund’s Shares will generally fluctuate with changes in the market value of the Fund’s holdings. The market prices of the Shares will generally fluctuate in accordance with changes in NAV as well as the relative supply of and demand for Shares on the NYSE Arca, Inc. (“NYSE Arca”). ALPS Advisors, Inc. (the “Adviser”) cannot predict whether the Shares will trade below, at or above their NAV. Price differences may be due, in large part, to the fact that supply and demand forces at work in the secondary trading market for the Shares will be closely related to, but not identical to, the same forces influencing the prices of the stocks of the Underlying Index trading individually or in the aggregate at any point in time.

Replication Management Risk. Unlike many investment companies, the Fund is not “actively” managed. Therefore, it would not necessarily sell a security because the security’s issuer was in financial trouble unless that security is removed from the Underlying Index.

Fund Performance

As of the date of this Prospectus, the Fund has not completed a full calendar year of investment operations. When the Fund has completed a full calendar year of investment operations, this section will include charts that show annual total returns, highest and lowest quarterly returns and average annual total returns (before and after taxes) compared to the Underlying Index and a benchmark index selected for the Fund.

Investment Adviser

ALPS Advisors, Inc. is the investment adviser to the Fund.

Portfolio Managers

Michael Akins, Senior Vice President, Director of Index Management & Product Oversight of ALPS Advisors, Inc. and Ryan Mischker, Manager of Index Management of ALPS Advisors, Inc., are responsible for the day to day management of the Fund. Mr. Akins and Mr. Mischker have each served in such capacity since the Fund’s inception and March 2015, respectively.

Purchase and Redemption of Shares

The Trust will issue and redeem Shares at NAV only in a large specified number of Shares called a “Creation Unit” or multiples thereof. A Creation Unit consists of 50,000 Shares. Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash constituting a substantial replication, or a representation, of the securities included in the Underlying Index.

Individual Shares of the Fund may only be purchased and sold in secondary market transactions through brokers. Shares of the Fund are listed for trading on NYSE Arca under the ticker symbol EQLT and because Shares will trade at market prices rather than NAV, Shares of the Fund may trade at a price greater than or less than NAV.

Tax Information

The Fund’s distributions are taxable and will generally be taxed as ordinary income or capital gains.

INTRODUCTION — ALPS ETF TRUST

ALPS ETF Trust (the “Trust”) is an investment company currently consisting of twenty separate exchange-traded funds. This prospectus relates to the Workplace Equality Portfolio. The Fund seeks investment results that replicate as closely as possible, before fees and expenses, the performance of the Workplace Equality Index™ (the “Underlying Index”).

The Fund’s shares (the “Shares”) are listed on the NYSE Arca. The Fund’s Shares will trade at market prices that may differ to some degree from the NAV of the Shares. Unlike conventional mutual funds, the Fund will issue and redeem Shares on a continuous basis, at NAV, only in large specified blocks of 50,000 Shares, each of which is called a “Creation Unit.” Creation Units will be issued and redeemed principally in-kind for securities included in a specified index. **Except when aggregated in Creation Units, Shares are not redeemable securities of the Fund.**

TAX-ADVANTAGED PRODUCT STRUCTURE

Unlike interests in many conventional mutual funds, the Shares are traded throughout the day on a national securities exchange, whereas mutual fund interests are typically only bought and sold at closing NAVs. The Shares have been designed to be tradable in the secondary market on a national securities exchange on an intra-day basis, and to be created and redeemed principally in-kind in Creation Units at each day’s next calculated NAV. These arrangements are designed to protect ongoing shareholders from adverse effects on the Fund’s portfolio that could arise from frequent cash creation and redemption transactions. In a conventional mutual fund, redemptions can have an adverse tax impact on taxable shareholders because of the mutual fund’s need to sell portfolio securities to obtain cash to meet fund redemptions. These sales may generate taxable gains for the shareholders of the mutual fund, whereas the in-kind redemption mechanism utilized by most exchange-traded funds, including the Fund, generally will not lead to a tax event for the Fund or its ongoing shareholders.

WORKPLACE EQUALITY PORTFOLIO

Investment Objective

The Fund seeks investment results that replicate as closely as possible, before fees and expenses, the performance of the Workplace Equality Index™ (the “Underlying Index”). The Fund’s investment objective is not fundamental and may be changed by the Board of Trustees without shareholder approval. The Fund has adopted a policy that requires the Fund to provide shareholders with at least 60 days’ notice prior to any material change in the Fund’s investment objective.

Additional Information about Principal Investment Strategies

The Board of Trustees of the Trust may change the Fund’s investment strategy and other policies without shareholder approval, except as otherwise indicated.

Underlying Index Description

The Underlying Index was created by Denver Investment Advisors LLC (“Denver Investments” or the “Index Provider”) in November 2013 to provide a benchmark for the performance of companies which support workplace equality for lesbian, gay, bisexual and transgender (“LGBT”) employees. The Underlying Index is disseminated publicly through sources such as Reuters and Bloomberg. The Underlying Index consists of approximately 200 publicly traded stocks of U.S. and foreign companies which support workplace equality for LGBT employees through their workplace practices.

Underlying Index Construction

In compiling the Underlying Index, the Index Provider uses publicly available lists such as the Stonewall®, National Gay & Lesbian Chamber of Commerce® Diversity Inc. Top 50®, or other screening sources identifying workplace policies that promote workplace equality for LGBT employees.

To qualify for Underlying Index inclusion, companies must satisfy the following criteria:

- a. Equal employment opportunity statement must prohibit discrimination based on sexual orientation and gender identity.
- b. Provide full benefits (health, dental, etc.) for same-sex spouses, domestic partners, and also include coverage for transgender individuals.
- c. Provide support for employee LGBT groups if applicable.
- d. Companies shall have a minimum market capitalization of \$250 million and have a minimum average daily trading volume of \$2 million for the prior three months) at the time of inclusion in the Underlying Index. Should a company’s market capitalization drop below \$250 million or three-month average daily trading volume drop below \$2 million as of the time of the Underlying Index’s annual reconstitution, it will be removed from the Underlying Index at that time.

The stocks in the Underlying Index are weighted equally as of each rebalance date. The Underlying Index is rebalanced quarterly, on the third Friday of March, June, September and December. The Underlying Index is reconstituted annually on the third Friday of each December.

SECONDARY INVESTMENT STRATEGIES

As a principal investment strategy, the Fund will normally invest at least 90% of its total assets in component securities that comprise the Underlying Index (or depository receipts based on such securities). As a non-principal investment strategy, the Fund may invest its remaining assets in money market instruments, including repurchase agreements or other funds which invest exclusively in money market instruments, convertible securities, structured notes (notes on which the amount of principal repayment and interest payments are based on the movement of one or more specified factors, such as the movement of a particular stock or stock index), forward foreign currency exchange contracts and in swaps, options and futures contracts. Swaps, options and futures

contracts (and convertible securities and structured notes) may be used by the Fund in seeking performance that corresponds to the Index, and in managing cash flows. The Fund will not invest in money market instruments as part of a temporary defensive strategy to protect against potential stock market declines generally, or declines specifically in the Underlying Index. The Adviser anticipates that it may take approximately three business days (i.e., each day the NYSE is open) for additions and deletions to the Underlying Index to be reflected in the portfolio composition of the Fund.

The Fund may borrow money from a bank up to a limit of 10% of the value of its total assets, but only for temporary or emergency purposes. The Fund may lend its portfolio securities to brokers, dealers and other financial institutions desiring to borrow securities to complete transactions and for other purposes. In connection with such loans, the Fund receives liquid collateral equal to at least 102% of the value of the portfolio securities being lent. This collateral is marked to market on a daily basis.

The investment objective and policies described herein constitute non-fundamental policies that may be changed by the Board of Trustees of the Trust without shareholder approval. Certain other fundamental policies of the Fund are set forth in the Statement of Additional Information under "Investment Restrictions."

ADDITIONAL RISK CONSIDERATIONS

In addition to the risks described previously, there are certain other risks related to investing in the Fund.

Trading Issues. Trading in Shares on the NYSE Arca may be halted due to market conditions or for reasons that, in the view of the NYSE Arca, make trading in Shares inadvisable. In addition, trading in Shares on the NYSE Arca is subject to trading halts caused by extraordinary market volatility pursuant to the NYSE Arca "Circuit breaker" rules. There can be no assurance that the requirements of the NYSE Arca necessary to maintain the listing of the Fund will continue to be met or will remain unchanged.

While the creation/redemption feature is designed to make it likely that Shares normally will trade close to the Fund's NAV, disruptions to creations and redemptions may result in trading prices that differ significantly from the Fund's NAV. If an investor purchases Shares at a time when the market price is at a premium to the NAV of the Shares or sells at a time when the market price is at a discount to the NAV of the Shares, then the investor may sustain losses.

Securities Lending. Although the Fund will receive collateral in connection with all loans of its securities holdings, the Fund would be exposed to a risk of loss should a borrower default on its obligation to return the borrowed securities (e.g., the loaned securities may have appreciated beyond the value of the collateral held by the Fund). In addition, the Fund will bear the risk of loss of any cash collateral that it invests.

These risks are described further in the Statement of Additional Information.

INVESTMENT ADVISORY SERVICES

Investment Adviser

ALPS Advisors, Inc. (the "Adviser") acts as the Fund's investment adviser pursuant to an advisory agreement with the Trust on behalf of the Fund (the "Advisory Agreement"). The Adviser, located at 1290 Broadway, Suite 1100, Denver, Colorado 80203, is registered with the Securities and Exchange Commission as an investment adviser. As of December 31, 2014, the Adviser provided supervisory and management services on approximately \$15.3 billion in assets through closed-end funds, mutual funds and exchange-traded funds. Pursuant to the Advisory Agreement, the Adviser manages the investment and reinvestment of the Fund's assets and administers the affairs of the Fund to the extent requested by the Board of Trustees.

Pursuant to the Advisory Agreement, the Fund pays the Adviser a unitary fee for the services and facilities it provides payable on a monthly basis at the annual rate of 0.75% of the Fund's average daily net assets. From time to time, the Adviser may waive all or a portion of its fee.

Out of the unitary management fee, the Adviser pays substantially all expenses of the Fund, including the cost of transfer agency, custody, fund administration, legal, audit, independent trustees and other services, except for interest expenses, distribution fees or expenses, brokerage expenses, taxes and extraordinary expenses not incurred in the ordinary course of the Fund's business.

The Adviser's unitary management fee is designed to pay substantially all the Fund's expenses and to compensate the Adviser for providing services for the Fund.

Approval of Advisory Agreement

A discussion regarding the basis for the Board of Trustees' approval of the Advisory Agreement is available in the Fund's semi-annual report to shareholders for the period ending May 31, 2014.

Portfolio Management

Michael Akins, Senior Vice President, Director of Index Management & Product Oversight, and Ryan Mischker, manager of Index Management of ALPS Advisors, Inc. are the Portfolio Managers of the Fund and are also responsible for the refinement and implementation of the equity portfolio management process.

Mr. Akins has been Portfolio Manager for the Fund since July 2011. Prior to joining ALPS Advisors, Mr. Akins served as Deputy Chief Compliance Officer for ALPS Fund Services. Before joining ALPS, Mr. Akins was AVP and Compliance Officer for UMB Financial Corporation and prior to UMB, he was an Account Manager at State Street Corporation. Mr. Akins has over 10 years financial services experience, is an Honor Graduate from the Fiduciary and Investment Risk Management School and graduated from Briar Cliff University with a B.A. in Business Administration.

Mr. Mischker has been Portfolio Manager for the Fund since March 2015. Prior to joining ALPS Advisors, Mr. Mischker served as Compliance Manager of ALPS Fund Services, where he was primarily responsible for managing all post-trade monitoring

for IRS, SEC and Pro/SAI investment guidelines and restrictions. Mr. Mischker has over 13 years financial services experience and graduated from the University of Northern Colorado with a B.S. in Finance and B.A. in Economics.

The Statement of Additional Information provides additional information about the portfolio manager's compensation structure, other accounts managed by the portfolio managers and the portfolio managers' ownership of securities of the Fund.

PURCHASE AND REDEMPTION OF SHARES

General

The Shares are issued or redeemed by the Fund NAV per Share only in Creation Unit size. See "How to Buy and Sell Shares."

Most investors buy and sell Shares of the Fund in secondary market transactions through brokers. Shares of the Fund are listed for trading in the secondary market on the NYSE Arca. Shares can be bought and sold throughout the trading day like other publicly traded shares. There is no minimum investment. Although Shares are generally purchased and sold in "round lots" of 100 Shares, brokerage firms typically permit investors to purchase or sell Shares in smaller "odd lots," at no per share price differential. When buying or selling Shares through a broker, you will incur customary brokerage commissions and charges, and you may pay some or all of the spread between the bid and the offered price in the secondary market on each leg of a round trip (purchase and sale) transaction. The Fund trades on the NYSE Arca at prices that may differ to varying degrees from the daily NAV of the Shares. Given that the Fund's Shares can be issued and redeemed in Creation Units, the Adviser believes that large discounts and premiums to NAV should not be sustained for long. The Fund trades under the NYSE Arca ticker symbol EQLT.

Share prices are reported in dollars and cents per Share.

Investors may acquire Shares directly from the Fund, and shareholders may tender their Shares for redemption directly to the Fund, only in Creation Units of 50,000 Shares, as discussed in the "How to Buy and Sell Shares" section below.

Book Entry

Shares are held in book-entry form, which means that no stock certificates are issued. The Depository Trust Company ("DTC") or its nominee is the record owner of all outstanding Shares of the Fund and is recognized as the owner of all Shares for all purposes (except for tax purposes).

Investors owning Shares are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all Shares. Participants in DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of Shares, you are not entitled to receive physical delivery of stock certificates or to have Shares registered in your name, and you are not considered a registered owner of Shares. Therefore, to exercise any right as an owner of Shares, you must rely upon the

procedures of DTC and its participants. These procedures are the same as those that apply to any other stocks that you hold in book entry or "street name" form.

HOW TO BUY AND SELL SHARES

Pricing Fund Shares

The trading price of the Fund's shares on the NYSE Arca may differ from the Fund's daily NAV and can be affected by market forces of supply and demand, economic conditions and other factors.

The NYSE Arca intends to disseminate the approximate value of Shares of the Fund every fifteen seconds. This approximate value should not be viewed as a "real-time" update of the NAV per Share of the Fund because the approximate value may not be calculated in the same manner as the NAV, which is computed once a day, generally at the end of the business day. The Fund is not involved in, or responsible for, the calculation or dissemination of the approximate value and the Fund does not make any warranty as to its accuracy.

The NAV per Share for the Fund is determined once daily as of the close of the New York Stock Exchange ("NYSE"), usually 4:00 p.m. Eastern time, each day the NYSE is open for trading. NAV per Share is determined by dividing the value of the Fund's portfolio securities, cash and other assets (including accrued interest), less all liabilities (including accrued expenses), by the total number of shares outstanding.

Equity securities are valued at the last reported sale price on the principal exchange on which such securities are traded, as of the close of regular trading on the NYSE Arca on the day the securities are being valued or, if there are no sales, at the mean of the most recent bid and asked prices. Equity securities that are traded in over-the-counter markets are valued at the NASDAQ Official Closing Price as of the close of regular trading on the NYSE Arca on the day the securities are valued or, if there are no sales, at the mean of the most recent bid and asked prices. Debt securities are valued at the mean between the last available bid and asked prices for such securities or, if such prices are not available, at prices for securities of comparable maturity, quality, and type. Securities for which market quotations are not readily available, including restricted securities, are valued by a method that the Trustees believe accurately reflects fair value. Securities will be valued at fair value when market quotations are not readily available or are deemed unreliable, such as when a security's value or meaningful portion of the Fund's portfolio is believed to have been materially affected by a significant event. Such events may include a natural disaster, an economic event like a bankruptcy filing, a trading halt in a security, an unscheduled early market close or a substantial fluctuation in domestic and foreign markets that has occurred between the close of the principal exchange and the NYSE Arca. In such a case, the value for a security is likely to be different from the last quoted market price. In addition, due to the subjective and variable nature of fair market value pricing, it is possible that the value determined for a particular asset may be materially different from the value realized upon such asset's sale.

Trading in securities on many foreign securities exchanges and over the counter markets is normally completed before the close of business on each U.S. business day. In addition, securities trading on a particular country or countries may not take place on all U.S. business days or may take place on days that are not U.S. business days. Changes in valuations on certain securities may occur at times or on days on which the Fund's NAV is not calculated and on which the Fund does not effect sales, redemptions and exchanges of its shares.

Creation Units

Investors such as market makers, large investors and institutions who wish to deal in Creation Units (large specified blocks of 50,000 Shares) directly with the Fund must have entered into an authorized participant agreement (such investors being "Authorized Participants" or "APs") with the distributor and the transfer agent, or purchase through a dealer that has entered into such an agreement. Set forth below is a brief description of the procedures applicable to purchase and redemption of Creation Units. For more detailed information, see "Creation and Redemption of Creation Unit Aggregations" in the Statement of Additional Information.

How to Buy Shares

In order to purchase Creation Units of the Fund, an investor must generally deposit a designated portfolio of equity securities included in the Underlying Index (the "Deposit Securities") and generally make a small cash payment referred to as the "Cash Component." For those APs that are not eligible for trading a Deposit Security, custom orders are available. The list of the names and the numbers of shares of the Deposit Securities is made available by the Fund's custodian through the facilities of the National Securities Clearing Corporation (the "NSCC"), immediately prior to the opening of business each day of the NYSE Arca. The Cash Component represents the difference between the NAV of a Creation Unit and the market value of the Deposit Securities. In the case of custom orders, cash-in-lieu may be added to the Cash Component to replace any Deposit Securities that the AP may not be eligible to trade.

Orders must be placed in proper form by or through a participant of the DTC ("DTC Participant") that has entered into an agreement with the Trust, the Distributor and the transfer agent, with respect to purchases and redemptions of Creation Units. All standard orders must be placed for one or more whole Creation Units of Shares of the Fund and must be received by the Distributor in proper form no later than the close of regular trading on the NYSE (ordinarily 4:00 p.m. Eastern time) ("Closing Time") in order to receive that day's closing NAV per Share. In the case of custom orders, as further described in the Statement of Additional Information, the order must be received by the Distributor no later than one hour prior to Closing Time in order to receive that day's closing NAV per Share. A custom order may be placed by an AP in the event that the Trust permits or requires the substitution of an amount of cash to be added to the Cash Component to replace any Deposit Security which may not be available in sufficient quantity for delivery or which may not be eligible for trading by such AP or the investor for which it is acting or any

other relevant reason. See "Creation and Redemption of Creation Unit Aggregations" in the Statement of Additional Information.

A fixed creation transaction fee of \$500 per transaction (the "Creation Transaction Fee") is applicable to each transaction regardless of the number of Creation Units purchased in the transaction. An additional variable charge for cash creations or partial cash creations may also be imposed to compensate the Fund for the costs associated with buying the applicable securities. The Fund may adjust these fees from time to time based on actual experience. See "Creation and Redemption of Creation Unit Aggregations" in the Statement of Additional Information. The price for each Creation Unit will equal the daily NAV per Share times the number of Shares in a Creation Unit plus the fees described above and, if applicable, any transfer taxes.

Shares of the Fund may be issued in advance of receipt of all Deposit Securities subject to various conditions, including a requirement to maintain cash at least equal to 115% of the market value of the missing Deposit Securities on deposit with the Trust. See "Creation and Redemption of Creation Unit Aggregations" in the Statement of Additional Information.

Legal Restrictions on Transactions in Certain Stocks

An investor subject to a legal restriction with respect to a particular stock required to be deposited in connection with the purchase of a Creation Unit may, at the Fund's discretion, be permitted to deposit an equivalent amount of cash in substitution for any stock which would otherwise be included in the Deposit Securities applicable to the purchase of a Creation Unit. For more details, see "Creation and Redemption of Creation Unit Aggregations" in the Statement of Additional Information.

Redemption of Shares

Shares may be redeemed only in Creation Units at their NAV and only on a day the NYSE Arca is open for business. The Fund's custodian makes available immediately prior to the opening of business each day of the NYSE Arca, through the facilities of the NSCC, the list of the names and the numbers of shares of the Fund's portfolio securities that will be applicable that day to redemption requests in proper form ("Fund Securities"). Fund Securities received on redemption may not be identical to Deposit Securities, which are applicable to purchases of Creation Units. Unless cash redemptions are available or specified for the Fund, the redemption proceeds consist of the Fund Securities, plus cash in an amount equal to the difference between the NAV of Shares being redeemed as next determined after receipt by the transfer agent of a redemption request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"), less the applicable redemption fee and, if applicable, any transfer taxes. Should the Fund Securities have a value greater than the NAV of Shares being redeemed, a compensating cash payment to the Fund equal to the differential, plus the applicable redemption fee and, if applicable, any transfer taxes will be required to be arranged for, by or on behalf of the redeeming shareholder. For more details, see "Creation and Redemption of Creation Unit Aggregations" in the Statement of Additional Information.

An order to redeem Creation Units of the Fund may only be effected by or through an AP. An order to redeem must be placed for one or more whole Creation Units and must be received by the transfer agent in proper form no later than the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) in order to receive that day's closing NAV per Share. In the case of custom orders, as further described in the Statement of Additional Information, the order must be received by the transfer agent no later than 3:00 p.m. Eastern time.

A fixed redemption transaction fee of \$500 per transaction (the "Redemption Transaction Fee") is applicable to each redemption transaction regardless of the number of Creation Units redeemed in the transaction. An additional variable charge for cash redemptions or partial cash redemptions may also be imposed to compensate the Fund for the costs associated with selling the applicable securities. The Fund may adjust these fees from time to time based on actual experience. The Fund reserves the right to effect redemptions in cash. A shareholder may request a cash redemption in lieu of securities, however, the Fund may, in its discretion, reject any such request. See "Creation and Redemption of Creation Unit Aggregations" in the Statement of Additional Information.

Distributions

Dividends and Capital Gains. Fund shareholders are entitled to their share of the Fund's income and net realized gains on its investments. The Fund pays out substantially all of its net earnings to its shareholders as "distributions."

The Fund typically earns income dividends from stocks and may earn interest from debt securities. These amounts, net of expenses, are passed along to Fund shareholders as "income dividend distributions." The Fund realizes capital gains or losses whenever it sells securities. Net long-term capital gains are distributed to shareholders as "capital gain distributions."

Income dividends, if any, are distributed to shareholders annually. Net capital gains are distributed at least annually. Dividends may be declared and paid more frequently to improve Underlying Index tracking or to comply with the distribution requirements of the Code. Some portion of each distribution may result in a return of capital (which is a return of the shareholder's investment in a fund). Fund shareholders will be notified regarding the portion of the distribution that represents a return of capital.

Distributions in cash may be reinvested automatically in additional whole Shares only if the broker through which the Shares were purchased makes such option available.

FREQUENT PURCHASES AND REDEMPTIONS

The Fund imposes no restrictions on the frequency of purchases and redemptions. The Board of Trustees evaluated the risks of market timing activities by the Fund's shareholders when they determined that no restriction or policy was necessary. The Board considered that, unlike traditional mutual funds, the Fund issues and redeems its shares at NAV for a basket of securities

intended to mirror the Fund's portfolio, plus a small amount of cash, and the Fund's Shares may be purchased and sold on the exchange at prevailing market prices. Given this structure, the Board determined that it is unlikely that (a) market timing would be attempted by the Fund's shareholders or (b) any attempts to market time the Fund by its shareholders would result in negative impact to the Fund or its shareholders.

FUND SERVICE PROVIDERS

ALPS Fund Services, Inc. is the administrator of the Fund.

The Bank of New York Mellon is the custodian, fund accounting agent and transfer agent for the Fund.

Dechert LLP serves as counsel to the Fund.

Deloitte & Touche LLP serves as the Fund's independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Fund.

INDEX PROVIDER

Denver Investments is the index provider for the Fund. Denver Investments is an independent, employee-owned investment management firm which provides investment management services for individuals, institutions, financial advisors, and intermediaries through mutual funds, separate accounts and sub-advised portfolios. Denver Instruments has been screening companies on the basis of LGBT workplace policies for clients since March of 1998. The Underlying Index was created in November 2013 as an extension of work that was performed at the request of clients. Denver Investments has entered into an index licensing agreement with the Adviser to allow the Adviser's use of the Underlying Index for the operation of the Fund. The Adviser pays licensing fees to Denver Investments from the Adviser's management fees or other resources.

DISCLAIMERS

Denver Investments is the designer of the construction and methodology for the Index. "Denver Investments" and "Workplace Equality Index™" are service marks or trademarks of Denver Investments. Denver Investments acts as brand licensor for the Index. Denver Investments is not responsible for the descriptions of the Underlying Index or the Fund that appear herein. Denver Investments is not affiliated with the Trust, the Adviser or the Distributor.

The Fund is not sponsored, endorsed or promoted by Denver Investments. Denver Investments makes no representation or warranty, express or implied, to the owners of the Fund or any member of the public regarding the advisability of investing in securities or commodities generally or in the Fund particularly and does not guarantee the quality, accuracy or completeness of the Underlying Index or any Underlying Index data included herein or derived therefrom and assume no liability in connection

with their use. The Underlying Index is determined and composed without regard to the Adviser or the Fund. Denver Investments has no obligation to take the needs of the Adviser, the Fund or the shareholders of the Fund into consideration in connection with the foregoing. Denver Investments is not responsible for and has not participated in the determination of pricing or the timing of the issuance or sale of the Shares of the Fund or in the determination or calculation of the NAV of the Fund. Denver Investments has no obligation or liability in connection with the administration or trading of the Fund.

Denver Investments does not guarantee the accuracy and/or completeness of the Underlying Index or any data included therein, and Denver Investments shall have no liability for any errors, omissions, or interruptions therein. Denver Investments makes no warranty, express or implied, as to results to be obtained by the Adviser, the Fund, Fund shareholders or any other person or entity from the use of the Underlying Index or any data included therein. Denver Investments makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Underlying Index or any data included therein. Without limiting any of the foregoing, in no event shall Denver Investments have any liability for any special, punitive, indirect, or consequential damages (including lost profits) arising out of matters relating to the use of the Index, even if notified of the possibility of such damages.

The Adviser does not guarantee the accuracy and/or the completeness of the Underlying Index or any data included therein, and the Adviser shall have no liability for any errors, omissions or interruptions therein. The Adviser makes no warranty, express or implied, as to results to be obtained by the Fund, owners of the Shares of the Fund or any other person or entity from the use of the Underlying Index or any data included therein. The Adviser makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the Underlying Index or any data included therein. Without limiting any of the foregoing, in no event shall the Adviser have any liability for any special, punitive, direct, indirect, or consequential damages (including lost profits) arising out of matters relating to the use of the Index, even if notified of the possibility of such damages.

FEDERAL INCOME TAXATION

As with any investment, you should consider how your investment in Shares will be taxed. The tax information in this Prospectus is provided as general information. You should consult your own tax professional about the tax consequences of an investment in Shares.

Unless your investment in the Shares is made through a tax-exempt entity or tax-deferred retirement account, such as an IRA plan, you need to be aware of the possible tax consequences when:

- The Fund makes distributions,
- You sell your Shares listed on the NYSE Arca, and
- You purchase or redeem Creation Units.

Taxes on Distributions

Dividends from net investment income, if any, are declared and paid annually. The Fund may also pay a special distribution at the end of the calendar year to comply with federal tax requirements. In general, your distributions are subject to federal income tax when they are paid, whether you take them in cash or reinvest them in the Fund. Dividends paid out of the Fund's income and net short-term capital gains, if any, are taxable as ordinary income. Distributions of net long-term capital gains, if any, in excess of net short-term capital losses are taxable as long-term capital gains, regardless of how long you have held the Shares.

The maximum individual rate applicable to long-term capital gains is either 15% or 20%, depending on whether the individual's income exceeds certain threshold amounts. In addition, some ordinary dividends declared and paid by the Fund to non-corporate shareholders may qualify for taxation at the lower reduced tax rates applicable to long-term capital gains, provided that holding period and other requirements are met by the Fund and the shareholder.

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from a Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross income" (in the case of an estate or trust) exceeds certain threshold amounts.

Distributions in excess of the Fund's current and accumulated earnings and profits are treated as a tax-free return of capital to the extent of your basis in the Shares, and as capital gain thereafter. A distribution will reduce the Fund's NAV per Share and may be taxable to you as ordinary income or capital gain even though, from an investment standpoint, the distribution may constitute a return of capital.

If you are not a citizen or permanent resident of the United States, or if you are a foreign entity, the Fund's ordinary income dividends (which include distributions of net short-term capital gains) will generally be subject to a 30% U.S. withholding tax, unless a lower treaty rate applies or unless such income is effectively connected with a U.S. trade or business. Prospective investors are urged to consult their tax advisors concerning the applicability of the U.S. withholding tax.

Dividends, interest and gains received by the Fund may give rise to withholding and other taxes imposed by foreign countries. Tax conventions between certain countries and the United States may reduce or eliminate such taxes. Shareholders of the Fund may, subject to certain limitations, be entitled to claim a credit or a deduction with respect to foreign taxes if the Fund is eligible to and

elects to pass through these taxes them. If more than 50% of the Fund's total assets at the end of its taxable year consists of foreign stock or securities, the Fund intends to elect to "pass through" to its investors certain foreign income taxes paid by the Fund, with the result that each investor will (i) include in gross income, as an additional dividend, even though not actually received, the investor's pro rata share of the Fund's foreign income taxes, and (ii) either deduct (in calculating U.S. taxable income) or credit (in calculating U.S. federal tax), subject to certain limitations, the investor's pro rata share of the Fund's foreign income taxes.

The Fund generally would be required to withhold a percentage of your distributions and proceeds if you have not provided a taxpayer identification number (generally your social security number) or otherwise provide proof of an applicable exemption from backup withholding. The backup withholding rate for an individual is 28%.

Taxes on Exchange-Listed Shares Sales

Currently, any capital gain or loss realized upon a sale of Shares is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as short-term capital gain or loss if the Shares have been held for one year or less. The ability to deduct capital losses may be limited.

Taxes on Purchase and Redemption of Creation Units

An AP who exchanges equity securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time of the exchange and the exchanger's aggregate basis in the securities surrendered and the Cash Component paid. A person who exchanges Creation Units for equity securities will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the aggregate market value of the securities received and the Cash Redemption Amount. The Internal Revenue Service, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing "wash sales," or on the basis that there has been no significant change in economic position. Persons exchanging securities should consult their own tax advisor with respect to whether the wash sale rules apply and when a loss might be deductible.

Under current federal tax laws, any capital gain or loss realized upon redemption of Creation Units is generally treated as long-term capital gain or loss if the Shares have been held for more than one year and as a short-term capital gain or loss if the Shares have been held for one year or less.

If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many and at what price you purchased or sold Shares.

The foregoing discussion summarizes some of the possible consequences under current federal tax law of an investment in the Fund. It is not a substitute for personal tax advice. You may also be subject to state and local taxation on Fund distributions, and sales of Fund Shares. Consult your personal tax advisor about the potential tax consequences of an investment in Fund Shares under all applicable tax laws.

OTHER INFORMATION

For purposes of the 1940 Act, the Fund is treated as a registered investment company. Section 12(d)(1) of the 1940 Act restricts investments by investment companies in the securities of other investment companies, including Shares of the Fund. The SEC has issued an exemptive order to the Trust permitting registered investment companies to invest in exchange-traded funds offered by the Trust beyond the limits of Section 12(d)(1) subject to certain terms and conditions, including that such registered investment companies enter into an agreement with the Trust.

Disclosure of Portfolio Holdings

The Fund's portfolio holdings will be disclosed each day on its website at www.alpsfunds.com. A description of the Trust's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information.

Premium/Discount Information

Information regarding how often the Shares of each Fund traded on the Exchange at a price above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund during the past calendar year will be available at www.alpsfunds.com.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the fiscal period February 25, 2014 (Commencement of Operations) through November 30, 2014. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund's (assuming reinvestment of all dividends and distributions). This information has been audited by Deloitte & Touche LLP, whose report, along with the Fund's financial statements, are included in the Fund's annual report, which is available upon request by calling the Fund at 844.375.8383. This information is also available free of charge on the Fund's website at www.alpsfunds.com.

For a Share Outstanding Throughout the Period Presented

	For the Period February 25, 2014 (Commencement of Operations) to November 30, 2014
NET ASSET VALUE, BEGINNING OF PERIOD	\$ 25.00
INCOME/(LOSS) FROM INVESTMENT OPERATIONS:	
Net investment income ^(a)	0.28
Net realized and unrealized gain	2.64
Total from investment operations	2.92
Net increase in net asset value	2.92
NET ASSET VALUE, END OF PERIOD	\$ 27.92
TOTAL RETURN ^(b)	11.68%
RATIOS/SUPPLEMENTAL DATA:	
Net assets, end of period (000s)	\$ 6,979
Ratio of expenses to average net assets	0.75% ^(c)
Ratio of net investment income to average net assets	1.42% ^(c)
Portfolio turnover rate ^(d)	8%

^(a) Based on average shares outstanding during the period.

^(b) Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period and redemption at the net asset value on the last day of the period and assuming all distributions are reinvested at reinvestment prices. Total return calculated for a period of less than one year is not annualized.

^(c) Annualized.

^(d) Portfolio turnover for periods less than one year are not annualized and does not include securities received or delivered from processing creations or redemptions.
