Workplace Equality Portfolio

Performance Overview

May 31, 2016 (Unaudited)

Investment Objective

The Workplace Equality Portfolio (the "Fund") seeks investment results that correspond (before fees and expenses) generally to the price and yield performance of its underlying index, the Workplace Equality Index™ (the "Underlying Index").

The Underlying Index is designed to provide a means of tracking the performance of companies which support workplace equality for lesbian, gay, bisexual and transgender ("LGBT") employees. The Underlying Index consists of approximately 200 publicly traded stocks of U.S. and foreign companies which support equality for LGBT employees through their workplace practices, including non-discrimination policies regarding sexual orientation and gender identity and providing full benefits to for same-sex spouses, domestic partners and transgender individuals. The Underlying Index is compiled by Denver Investment Advisors LLC ("Denver Investments" or the "Index Provider"). The Index Provider uses publicly available lists and screening sources such as the National Gay & Lesbian Chamber of Commerce® Diversity Inc. Top 50®, Stonewall® or other screening sources, to identify companies with workplace policies that meet the Underlying Index's criteria for equality for LGBT employees as described above (as well as market capitalization and liquidity requirements). The Index Provider also utilizes its own proprietary database for LGBT screening. The criteria are subject to change in response to changes in law.

Performance data quoted represents past performance. Past performance does not guarantee future results. The table does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than the original cost. Current performance data may be higher or lower than actual data quoted. For the most current month-end performance data please visit www.alpsfunds.com or call 1.844.375.8383.

NAV is an exchange-traded fund's per-share value. The per-share dollar amount of the Fund is derived by dividing the total value of all the securities in its portfolio, less any liabilities, by the number of Fund shares outstanding. Market Price is the price at which a share can currently be traded in the market. Information detailing the number of days the Market Price of the Fund was greater than the Fund's NAV and the number of days it was less than the Fund's NAV can be obtained at www.alpsfunds.com.

[^] The Fund Commencement date was February 25, 2014.

^{*} Market Price is based on the midpoint of the bid-ask spread at 4 p.m. ET and does not represent the returns an investor would receive if shares were traded at other times.

The Workplace Equality Index™: an equal weighted index of companies that support lesbian, gay, bisexual and transgender (LGBT) equality in their workplace.

The S&P 500® Total Return Index: the Standard & Poor's composite index of 500 stocks, a widely recognized, unmanaged index of common stock prices.

The indexes are not actively managed and do not reflect any deductions for fees, expenses or taxes. The indexes are reported on a total return basis, which assumes reinvestment of any dividends and distributions realized during a given time period. One cannot invest directly in an index. Index performance does not reflect Fund performance.

The Fund invests in stocks of companies which meet the Index's criteria for supporting workplace equality for LGBT employees. The trend of companies supporting workplace equality in this fashion is relatively recent, and there may be a limited number of companies which meet the Index's criteria.

The Workplace Equality Portfolio is not suitable for all investors. Investments in the Fund are subject to investment risks, including possible loss of the principal amount invested.

ALPS Portfolio Solutions Distributor, Inc., a FINRA member, is the distributor for the Workplace Equality Portfolio.

ALPS Portfolio Solutions Distributor, Inc. is not affiliated with Denver Investments.

Disclosure of Fund Expenses

May 31, 2016 (Unaudited)

Shareholder Expense Example: As a shareholder of the Fund, you incur two types of costs: (1) transaction costs which may include creation and redemption fees or brokerage charges, and (2) ongoing costs, including management fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other funds. It is based on an investment of \$1,000 invested at the beginning of the (six month) period and held through May 31, 2016.

Actual Return: The first line of the table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you incurred over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses attributable to your investment during this period.

Hypothetical 5% Return: The second line of the table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

The expenses shown in the table are meant to highlight ongoing Fund costs only and do not reflect any transaction costs, such as creation and redemption fees or brokerage charges. Therefore, the second line is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these costs were included, your costs would have been higher.

	Beginning Account Value 12/1/15	Ending Account Value 5/31/16	Expense Ratio ^(a)	Expenses Paid During Period 12/1/15 - 5/31/16 ^(b)
Workplace Equality Portfolio Fund				
Actual	\$ 1,000.00	\$ 1,010.10	0.75%	\$ 3.77
Hypothetical (5% return before expenses)	\$ 1,000.00	\$ 1,021.25	0.75%	\$ 3.79

^(a) Annualized, based on the Fund's most recent fiscal half year expenses.

^(b) Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half year (183), divided by 366.

1. ORGANIZATION

ALPS ETF Trust (the “Trust”), a Delaware statutory trust, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). As of May 31, 2016, the Trust consisted of eighteen separate portfolios. Each portfolio represents a separate series of the Trust. This report pertains solely to the Workplace Equality Portfolio (the “Fund”). The investment objective of the Fund is to seek investment results that correspond generally, before fees and expenses, to the price and yield of the Workplace Equality Index™. The investment advisor uses a “passive” or indexing approach to try to achieve the Fund’s investment objective. The Fund has elected to qualify as a diversified series of the Trust under the 1940 Act.

The Fund’s Shares (“Shares”) are listed on the New York Stock Exchange (“NYSE”) Arca. The Fund issues and redeems Shares at net asset value (“NAV”) in blocks of 50,000 Shares, each of which is called a “Creation Unit”. Creation Units are issued and redeemed principally in-kind for securities included in a specified index. Except when aggregated in Creation Units, Shares are not redeemable securities of the Fund.

Pursuant to the Trust’s organizational documents, its Officers and Trustees are indemnified against certain liability arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of the financial statements. The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. The Fund is considered an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board *Accounting Standards Codification Topic 946*.

A. Portfolio Valuation

The Fund’s NAV is determined daily, as of the close of regular trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The NAV is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses and dividends declared but unpaid), by the total number of shares outstanding.

Portfolio securities listed on any exchange other than the NASDAQ Stock Market LLC (“NASDAQ”) are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and ask prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the latest quoted sale price in such market.

The Fund’s investments are valued at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Trust’s Board of Trustees (the “Board”). When market quotations are not readily available or when events occur that make established valuation methods unreliable, securities of the Fund may be valued in good faith by or under the direction of the Board. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; a security whose market price is not available from a pre-established primary pricing source or the pricing source is not willing to provide a price; a security with respect to which an event has occurred that is most likely to materially affect the value of the security after the market has closed but before the calculation of the Fund’s NAV or make it difficult or impossible to obtain a reliable market quotation; or a security whose price, as provided by the pricing service, does not reflect the security’s “fair value” due to the security being de-listed from a national exchange or the security’s primary trading market is temporarily closed at a time when, under normal conditions, it would be open. As a general principle, the current “fair value” of a security would be the amount which the owner might reasonably expect to receive from the sale on the applicable exchange or principal market. A variety of factors may be considered in determining the fair value of such securities.

B. Fair Value Measurements

The Fund discloses the classification of its fair value measurements following a three-tier hierarchy based on the inputs used to measure fair value. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability; including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Valuation techniques used to value the Fund's investments by major category are as follows:

Equity securities, including restricted securities, for which market quotations are readily available, are valued at the last reported sale price or official closing price as reported by a third party pricing vendor on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy. In the event there were no sales during the day or closing prices are not available, securities are valued at the mean of the most recent quoted bid and ask prices on such day and are generally categorized as Level 2 in the hierarchy. Investments in open-end mutual funds are valued at their closing NAV each business day and are categorized as Level 1 in the hierarchy.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy.

Various inputs are used in determining the value of the Fund's investments as of the end of the reporting period. When inputs used fall into different levels of the fair value hierarchy, the level in the hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The designated input levels are not necessarily an indication of the risk or liquidity associated with these investments.

These inputs are categorized in the following hierarchy under applicable financial accounting standards:

- Level 1 – Unadjusted quoted prices in active markets for identical investments, unrestricted assets or liabilities that a Fund has the ability to access at the measurement date;
- Level 2 – Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and
- Level 3 – Significant unobservable prices or inputs (including the Fund's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The following is a summary of the inputs used to value the Fund's investments as of May 31, 2016:

Investments in Securities at Value	Level 1 - Unadjusted Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Common Stocks*	\$ 10,990,878	\$ –	\$ –	\$ 10,990,878
Short Term Investments	39,695	–	–	39,695
TOTAL	\$ 11,030,573	\$ –	\$ –	\$ 11,030,573

* For a detailed sector breakdown, see the accompanying Schedule of Investments.

The Fund recognizes transfers between levels as of the end of the period. For the six months ended May 31, 2016, the Fund did not have any transfers between Level 1 and Level 2 securities. The Fund did not have any securities which used significant unobservable inputs (Level 3) in determining fair value.

C. Securities Transactions and Investment Income

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the highest cost basis. Dividend income and capital gains distributions, if any, are recorded on the ex-dividend date. Interest income, if any, is recorded on the accrual basis.

D. Dividends and Distributions to Shareholders

Dividends from net investment income of the Fund, if any, are declared and paid annually or as the Board may determine from time to time. Distributions of net realized capital gains earned by the Fund, if any, are distributed at least annually.

E. Federal Tax and Tax Basis Information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from U.S. GAAP. Reclassifications are made to the Fund's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under income tax regulations. The amounts and characteristics of tax basis distributions and composition of distributable earnings/(accumulated losses) are finalized at fiscal year-end; accordingly, tax basis balances have not been determined as of May 31, 2016.

The tax character of the distributions paid during the fiscal year ended November 30, 2015 was as follows:

	Ordinary Income	Long-Term Capital Gain	Return of Capital
Workplace Equality Portfolio	\$ 98,693	\$ -	\$ -

As of May 31, 2016, the cost of investments for federal income tax purposes and accumulated net unrealized appreciation/(depreciation) on investments were as follows:

	Workplace Equality Portfolio
Gross appreciation (excess of value over tax cost)	\$ 985,270
Gross depreciation (excess of tax cost over value)	(627,353)
Net unrealized appreciation (depreciation)	\$ 357,917
Cost of investments for income tax purposes	\$ 10,672,656

The differences between book-basis and tax-basis are primarily due to the deferral of losses from wash sales.

F. Income Taxes

No provision for income taxes is included in the accompanying financial statements, as the Fund intends to distribute to shareholders all taxable investment income and realized gains and otherwise comply with Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. The Fund evaluates tax positions taken (or expected to be taken) in the course of preparing the Fund's tax returns to determine whether these positions meet a "more-likely-than-not" standard that, based on the technical merits, have a more than fifty percent likelihood of being sustained by a taxing authority upon examination. A tax position that meets the "more-likely-than-not" recognition threshold is measured to determine the amount of benefit to recognize in the financial statements.

As of and during the six months ended May 31, 2016, the Fund did not have a liability for any unrecognized tax benefits. The Fund files U.S. federal, state, and local tax returns as required. The Fund's tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return, but may extend to four years in certain jurisdictions. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

ALPS Advisors, Inc. (the "Adviser") acts as the Fund's investment adviser pursuant to an Advisory Agreement with the Trust on behalf of the Fund (the "Advisory Agreement"). Pursuant to the Advisory Agreement, the Fund pays the Adviser a unitary fee for the services and facilities it provides payable on a monthly basis at the annual rate of 0.75% of the Fund's average daily net assets. From time to time, the Adviser may waive all or a portion of its fee.

Out of the unitary management fee, the Adviser pays substantially all expenses of the Fund, including the licensing fees to the Index provider, the cost of transfer agency, custody, fund administration, legal, audit, independent trustees and other services, except for interest expenses, distribution fees or expenses, brokerage expenses, taxes and extraordinary expenses not incurred in the ordinary course of the Fund's business. The Adviser's unitary management fee is designed to pay substantially all the Fund's expenses and to compensate the Adviser for providing services for the Fund.

ALPS Fund Services, Inc., an affiliate of the Adviser, is the administrator of the Fund.

Notes to Financial Statements

May 31, 2016 (Unaudited)

Each Trustee who is not an officer or employee of the Adviser, any sub-adviser or any of their affiliates (“Independent Trustees”) receives (1) a quarterly retainer of \$5,000, (2) a per meeting fee for regularly scheduled meetings of \$3,750, (3) \$1,500 for any special meeting held outside of a regularly scheduled board meeting, and (4) reimbursement for all reasonable out-of-pocket expenses relating to attendance at meetings.

4. PURCHASES AND SALES OF SECURITIES

For the six months ended May 31, 2016, the cost of purchases and proceeds from sales of investment securities, excluding in-kind transactions and short-term investments, were as follows:

Fund	Purchases	Sales
Workplace Equality Portfolio	\$ 2,424,144	\$ 2,470,612

For the six months ended May 31, 2016, the cost of in-kind purchases and proceeds from in-kind sales were as follows:

Fund	Purchases	Sales
Workplace Equality Portfolio	\$ 1,342,284	\$ 0

Gains on in-kind transactions are not considered taxable for federal income tax purposes.

5. CAPITAL SHARE TRANSACTIONS

Shares are created and redeemed by the Fund only in Creation Unit size aggregations of 50,000 shares. Only broker-dealers or large institutional investors with creation and redemption agreements called Authorized Participants (“AP”) are permitted to purchase or redeem Creation Units from the Fund. Such transactions are generally permitted on an in-kind basis, with a balancing cash component to equate the transaction to the NAV per unit of the Fund on the transaction date. Cash may be substituted equivalent to the value of certain securities generally when they are not available in sufficient quantity for delivery, not eligible for trading by the AP or as a result of other market circumstances.
